REPORT ON MULTI-TECH 2023

Organized by

Alumni Association of S.B.M. Polytechnic

And

Shri Bhagubhai Mafatlal Polytechnic

Date: 13th – 14th February, 2023

Venue

3rd floor, 4th floor, and Seminar Hall

**In New building of Shri BHAGUBHAI MAFATLAL
POLYTECHNIC**

Introduction: The S.B.M.P Alumni Association conceptualized a novel idea to bring in the entrepreneurs and project their capabilities to other industries and engineering students.

We appeal to various industries, entrepreneurs, start-up and unicorns to book their stalls in MULTI-TECH 2023 and to “exhibit” their products and services.

Furthermore, this exhibition included conference having a theme “**SKILL INDIA**”, where will covered emerging technologies domains such as Artificial Intelligence (AI), Machine Learning (ML), Industry 4.0, Coastal Road, Expressways and Block chain, with participation from eminent academicians and industrialists. MULTI-TECH 2023 exhibition and conference had active sponsorship and collaboration with prominent industries since the Polytechnic has a strong linkage with the industry. Since many years this strong industry bonding has visible at every stage such as participation in curriculum and facilities developments, Continuous Education Programme (CEP), Need-based Training Programme, etc.

The exhibition was free of cost and open to all the stakeholders. however, registration was mandatory to the present students. Wide publicity attracted divers visitors. The event was being an excellent opportunity to reunite the Alumni. The Alumni Association in collaboration with the Polytechnic provide facilities to conduct get-together.

List of Stakeholders:

- S.B.M.P students and staff,
- Alumni of S.B.M.P.
- Industrialists
- Speakers
- Society

Objective:

- To secure and support intimate contact amongst the alumni, present students, and staff.
- To promote and support educational activities and programs for the benefit of the alumni.
- To assist alumni in every manner possible, through specialized knowledge and experience gained in the profession.
- To promote social and cultural activities and conduct activities that are of interest to the alumni through fundraising, publication of a magazine or bulletin.
- To promote the cause of technical education and to receive advise for professional bodies, industries, educational institutions, and Government bodies.
- To create great rapport between SBMP and Industries.

Planning:

First name of the event was decided as '**MULTI-TECH, 2023**'. Then date of the event was decided. The Venue was selected as the S.B.M.P Building (Third floor, fourth floor, fifth floor, LR 304) itself, so we don't require any permissions from the authority like police etc. For selecting the venue permission was taken from the higher authorities of the SVKM Body. Then informing alumni and other stakeholder about the event. After that we started searching and calling peoples for sponsorship for the event. Stalls were sold via calling, mailing and messaging the alumni and all the industrialists. Then we finalize the vendor for the decoration work, catering service, audio- visual system. Stalls were arranged as per layout. Menu was decided with caterers and refreshments were decided when to served was decided. Too how many people was decided. Then costing was removed for all the facility. Then name of sponsors was finalize. Posters, brochure and template making, get checked and printed. Stalls were allotted with the name of company. Conforming all the speakers for the conference on emerging areas. Developing the team of volunteers. Lining up and framing the events.

Gold Sponsors – 02	Volunteers – 60+	Conf. Speakers – 08
Conference Sponsors – 02	Faculty & Staff – 100+	Visitors - 463
Stall Owners - 27	Alumni – 100+	

Outcome:

MULTI-TECH 2023 event consisted of two components (Exhibition and conference on emerging areas) the following are outcomes accomplished.

- Industry –institute linkage
- Industry – alumni linkage
- Institute linkage with professional bodies
- Alumni reunion
- Exposure of present student to emerging areas and world of work
- Retired staff reunion
- Image building

Conclusion:

Conduct of MULTITECH 2023 on Feb 13-14 was great success in terms of participation by various stake holders.
